

Summer School Music Program

SOUND THINKING AUSTRALIA and the CUSKELLY COLLEGE OF MUSIC

1st January, 2018 – 12th January, 2018
St Aidan's Anglican Girls' School, Brisbane

Early Childhood Music

This course caters for prep-school teachers, early childhood specialists, crèche and kindergarten carers, day care providers, parents and all those interested in childhood development. The Early Childhood Music courses are structured as a 3-year sequential program, designed to provide participants with an informed understanding of both childhood development and the key role of music in that development. The musical skills of the teacher, carer or parent are central to the provision of appropriate music-making activities for children. Therefore, participants will be involved in the development of their own musical skills.

Primary and Secondary Classroom Music

This stream caters for music specialists in primary and secondary schools, classroom teachers, studio teachers and other interested people who wish to improve their music teaching skills. The classroom music course is designed as a 3-year sequential program with two specialisations – Primary or Secondary. The Secondary stream is a unique conceptualisation of aural-based methodology with older students and clearly demonstrates successful pathways for students to progress through the entire secondary school curriculum.

Participants are required to progress through each of the levels to receive full accreditation with KMEIA. All participants who undertake these programs for assessment as part of the requirements for the Australia Kodály Certificate are advised to familiarise themselves with the requirements for certification as outlined in the AKC syllabus - <http://www.kodaly.org.au/akc/>
